

# Join these businesses ...and help keep the Team Valley safe

All the businesses listed on this page operate from Team Valley and they are all members of Valleywatch; the unique CCTV surveillance and security scheme which provides a wealth of benefits exclusively to Team Valley businesses, their staff, their customers and the general public.

Valleywatch membership provides 24-hour manned CCTV surveillance, mobile patrols which never leave the estate, key holding, personal responses to alarm activation, opening and closing of buildings, lone worker safety and protection and even local police support.

The Valleywatch scheme has helped curb crime, reduce vandalism, lower business insurance premiums and establish Team Valley as a safe working and shopping environment. This level of service just cannot be matched by other, more remotely located, security organisations.

At a time when being seen as a good corporate citizen is increasingly important for most businesses, you cannot afford to miss out on a scheme which has such wide reaching benefits for its members, their stakeholders and the general public too.

For further information contact Cyril Deeming at Valleywatch on **0191 499 4700** or visit **www.valleywatch.co.uk**
